# WILLIAM J. COLLINS

***On behalf of the faculty and staff of Greater Lowell Technical high School, we the senior class of 1999 wish Mr. Collins a happy and long retirement.***

William J. Collins received his BS in Business Administration from Boston College in 1956 and his Master of Education from Fitchburg State College in 1960.

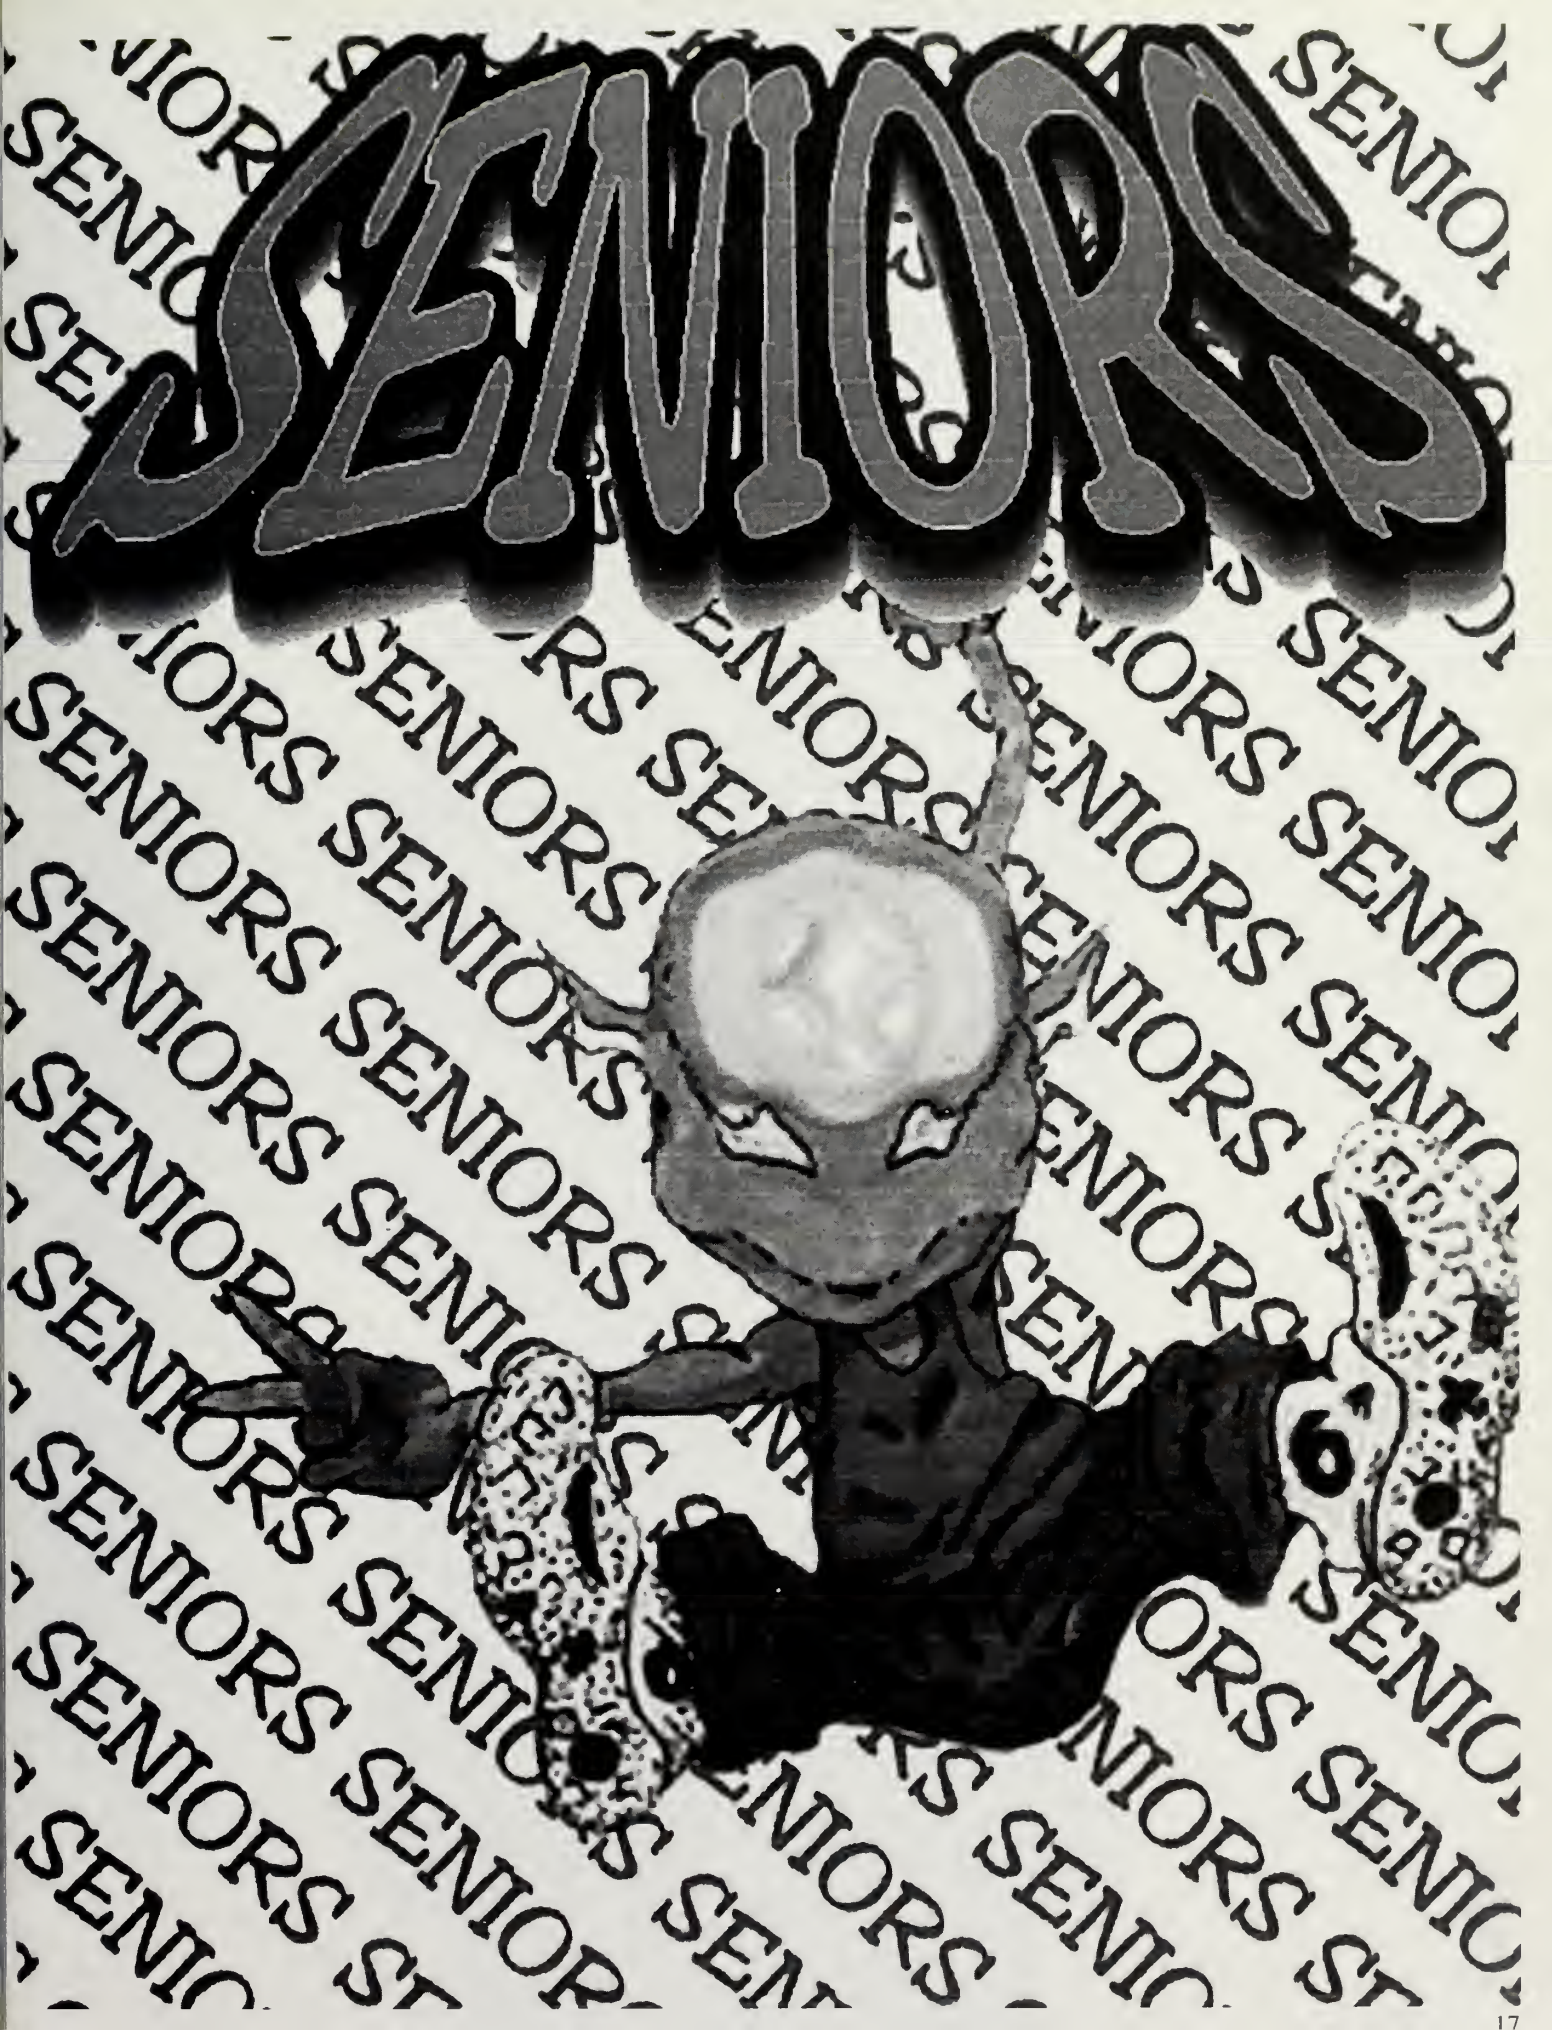

Bill began his career in education in 1956 as a math teacher at the former Lowell Trade School. In 1971 he was appointed as the first Director of Guidance at Greater Lowell Technical High School; in 1975 he was named Deputy Superintendent; and, in 1976 Bill was appointed Superintendent Director at Greater Lowell.

Throughout his distinguished career in education, Bill has been a true leader in the field of Vocational Technical Education. Due largely to his wisdom, support, and encouragement, Greater Lowell has successfully undertaken statewide initiative projects such as CBVE, MSCP, Adult Training and Retraining, DYS Youth Training, Head Start Parent Integrational Training, and Tech Prep-Articulation.

The recipient of numerous educational, community and achievement awards, Bill received a Science and Educational Award from the Northern Essex Chamber of Commerce in 1983 and was named Elk of the Year by the Lowell Lodge of Elks #87 that same year. In 1990 he received a special award for statewide contribution to vocational education, and in 1994 Bill was named to the Regulatory Relief Commission for the Commonwealth of Massachusetts.

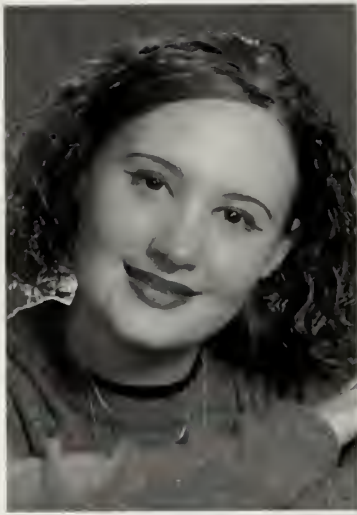

Actively involved in the Greater Lowell Community, Bill currently serves as a trustee for the Lowell Memorial Auditorium and a trustee-corporator for the Lowell 5 Cents Saving Bank.

*William J. Collins - Superintendent - Director*

## *Superintendent's Message*

*Graduation, far from being an end, is the beginning of all your tomorrows. Over the past four years, you have worked and studied and now you are about to begin a new chapter of your life. For some of you this will mean a job, some the Armed Service, and for others it will mean college and further years of study and preparation. Whatever course your future takes, it is my hope that you will look back on your years at Greater Lowell Technical High School as years that have thoroughly prepared you to meet and deal with the challenges that life will present.*

*On behalf of the staff and faculty at Greater Lowell Technical High School, I wish each and every one of you the happiness of a productive life, the respect of your fellow human beings, and the love of your family.*

*I also wish you continued success but, always remember, success is a journey - not a destination. May the future be yours.*

*William J. Collins

Harold O. Bell  
Tyngsboro - In Memoriam

## Harold O. Bell In Memoriam

*Harold O. Bell, Jr. possessed and evidenced an unswerving commitment to the children of Tyngsboro and the Greater Lowell District, intent on doing his best and in his own inimitable way intent on leaving his imprint for generations to come.*

*He was a man of keen insight, and served the Technical School Committee well during his 34 years of involvement with the school. Rarely, did Harold miss a School Committee meeting, often giving up family time and sacrificing much to serve his town of Tyngsboro.*

*Harold was proud of the fact that he was involved with the Regional School as one of its Founding Fathers. Sold on its tremendous possibilities from the start, he championed the cause of vocational technical education. As time elapsed, Harold cherished and valued everyone and everything about the school district, what it represented and what it could offer to its children. He truly loved watching us grow and develop and continue to provide quality education to the children he represented.*

*I think what made Harold so very endearing and special, during his years of service, was the manner in which he conducted himself. Harold was never a man who thrived on, needed or even enjoyed pomp and circumstance. You never saw his name in headlines. In fact, it was quite the opposite. Harold remained quite content and happy to remain in the background. He never looked for thanks, praise or recognition. He found his happiness in the successes and happiness of others.*

*Harold would be exceedingly proud that this book was dedicated to his memory and to all that he gave to and did for the school. He would be very proud of this class of 1999. May you continue to strive to be the best.*

*With any luck, this will be the last yearbook that I complete alone. It is time for someone younger and fresher to take over ( I think it's long overdue). After working on the Yearbook at Greater Lowell for nineteen years and completing sixteen publications I feel that I have done something to be proud of. I have made a lot of friends and become closer to students I may not have reached and hope that I've made a difference.*

*I thank all the faculty for being so cooperative throughout the years and hope that I haven't made too many enemies when I needed students to help with a deadline. Please forgive me for any bad photos of you throughout the years, sometimes you just have to use what you have available. But I do hope that you noticed that the faculty pictures got smaller as we got older. I hope you all appreciated that!!!!*

*I have to thank some people in particular who I couldn't have done the book without. First is my good friend Mary Lappin. If anyone knows about my typing skills they will realize what I mean (it's taking me about an hour to type this page, not really, and I have to proof read a billion times). Then there are all the Graphics teachers both past and present who have helped me personally and also by training students that can get me out of some pretty desperate binds. And last but not least, David Saul, who only seems to have just the picture that I missed or lost.*

*It has been a great nineteen years and I'm glad that I had the opportunity to create something that our students will look back on for the rest of their lives.*

*Jan Megdanis*
